

Willie Carter - President

Lean Manufacturing/Business Process Improvement Consultant

With over 30 years experience in research and development, quality, manufacturing, operations, marketing, and business consulting, Willie L. Carter is a true Lean expert with a keen sense of identifying waste in processes and getting to the root cause of issues constraining operations. He is excellent at building strong relationships across all levels of a client organization and understands the importance of transferring knowledge to his client partners.

A trained and proven facilitator, Willie excels at motivating people to work towards a common purpose, while showing them how to be better and more efficient in their daily tasks. He has assisted and facilitated client teams from the pharmaceutical, automotive, construction, food, packaging, tooling and service industries in maximizing business performance through the implementation of Lean management, quality systems, and business process improvement.

In addition to his business experience he is also an adjunct faculty member of the Walter E. Heller College of Business Administration at Roosevelt University—Chicago, teaching graduate and undergraduate courses in Operations Management, Executive Leadership, and Statistics.

Mr. Carter has published numerous articles on process improvement and is the author of the book "Process Improvement for Administrative Departments—The Key to Internal Customer Satisfaction."
